

REMARKS

This supplement to the Election filed with Amendment on May 14, 2007 is made to correct an erroneous amendment filed with the election. The amendment contained claims from some other unrelated case which were evidently inserted by computer error or accident. Therefore, please cancel the erroneous amendment and enter the above amendment in place of the earlier incorrect amendment filed on May 14, 2007.

Without prejudice, applicant repeats the election correctly made in the Election filed May 14, 2007, i.e., the election of the Group I claims 1-20 and 30-34 drawn to a method for calculating a position of a mobile communication equipment based on noised level reduced signal phase by using carrier signal. The other Group II claims are again cancelled by the above amendment but have been re-filed on May 11, 2007 in a divisional application Serial No. 11/801,788 covering the other group (Group II claims 21 and 22-29).

The remaining claims have now been correctly amended to remove preambles, to remove means-plus-function claim language to avoid a 35 U.S.C. §112, sixth paragraph, construction, and to remove other informalities from the claims.

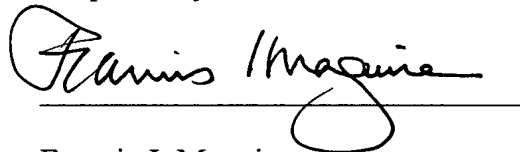

Examination on the merits of both applications is requested.

It is not believed that any extension or claim fee for this corrected response is due, but if this is incorrect, the Commission is authorized to consider this paper a petition for the appropriate extension and to deduct the appropriate fee from our Deposit Account No. 23-0442.

Date: June 5, 2007
